# Highlights

## 24 carat gold-plated connector

24 carat gold-plated connectors ensure the best signal quality for your components.

## Corrosion-resistant connection

24K gold-electroplated connectors create secure and extremely durable connections that optimize signal quality and deliver the best picture and data transfer.

## High quality components

Superior grade internal devices and wiring allow the splitter to maintain the integrity of the original signal.

## Die-cast Construction

The splitter body is cast, instead of stamped, for a heavier, more rugged construction and better overall performance.

## Dual ground connections

Choose where to ideally ground the body of the splitter.

## Mounting screws included

This is all the necessary hardware you need to ideally position and secure the splitter.
