Highlights

Meets IEEE 1394a specification

Meets mandated standard for data transmission.

Superior shielding

Superior shielding maximizes data transfer by guarding against external radio frequency noise.

400 Mbps transfer speed

400 Mbps transfer speed meets the IEEE 1394a standard.

Gold-plated connectors

Gold-plated connectors provide better conductivity by lowering contact resistance. They also prevent connector deterioration through oxidation.

Corrosion-resistant connectors

Compressed brass with 24K gold-electroplated connectors creates a secure and extremely durable connection that optimizes signal quality and delivers the best picture and data transfer.

Flexible PVC Jacket

Flexible PVC jacket provided protection to the delicate core of the cable. It also offers extended durability and ease of installation.

Molded ends

Molded ends prevent fraying and extend the life of your cable.

Rubber strain relief

Rubber strain relief provides a secure, yet flexible juncture between the cable and the plug.
