

HP UV Premium Photobase Paper is a true photographic-grade paper that will accept a high-ink coverage without rippling. Use with HP 788 inks for further water-, light-, and scratch-resistance. Suitable for indoor or short-term outdoor displays.

Designed for low-volume HP UV Curable printer users

HP UV Premium Photobase Paper delivers high-impact images with a matte finish. Exceptional indoor and short term outdoor application versatility without lamination ensures suitability for a wide range of uses.

True photobase paper provides exceptional results. Print with high ink coverage without rippling and keep printing costs low without sacrificing quality.

Ease of use reduces post processing time. Use indoors or for short term outdoor applications without lamination. HP 788 inks add water-, light-, and scratch-resistance.

HP UV Premium Photobase Paper

Compatibility

For compatibility information, please refer to the latest Large Format Supplies Compatibility chart on www.hp.com/go/designjet/supplies

For the latest ICC/media profiles, please visit www.hp.com/go/designjet/supplies (click on ICC profiles and select your printer). For non-post script printers see your external RIP vendor.
