

HP Baryte Satin Art Paper creates and replicates photographic and fine art prints with the look and feel of traditional baryte papers. This smooth surface paper delivers outstanding image performance with a light satin shimmer finish.

Ideally suited for artists, photo studios, professional photographers, Fine Art photographers, image library managers, advertising agencies, graphic designers and Print Service Providers.

HP Baryte Satin Art Paper replicates the look and feel of classic argentic baryte papers. It delivers outstanding rendering of half-tone greys, saturated black and neutral tone renderings, optimised for portrait photography.

HP Baryte Satin Art Paper restitutes the visual force and emotional power of vintage photography. A smooth, satin surface provides sharp details on vintage photographic prints and art reproductions—all with a light satin shimmer.

Combines an acid buffered fiber base substrate, an authentic baryte smooth surface coating and a high-performance inkjet layer optimised for high image performance, delivering long lasting prints with a noble and high quality touch.

HP Baryte Satin Art Paper

Compatibility

For compatibility information, please refer to the latest Large Format Supplies Compatibility chart on www.hp.com/go/designjet/supplies

For the latest ICC/media profiles, please visit www.hp.com/go/designjet/supplies (click on ICC profiles and select your printer). For non-post script printers see your external RIP vendor.
