- High-definition headphones for precise sound
- FM radio with RDS and 20 presets for more music options

Easy enjoyment on the go

- Audible.com features digital audiobooks and more
- 7.6 cm/3" wide-QVGA color display for superb video enjoyment
- Playback DRM-free music from your iTunes library
- Create playlists or delete songs directly on the device
- Up to 25-hour music or 5-hour video playback*

Easy and intuitive experience

- Easy video downloads from the Internet to your GoGear
- Folder view to organize and view media files like on your PC
- SuperScroll™ to find what you want in a fast, simple way

PHILIPS
sense and simplicity

Highlights

Active noise cancelation

With Noise Canceling technology, you can listen to music on the go without being affected by ambient noise. Earphone microphones detect ambient noise where it impacts you most and then a digital signal processor creates the necessary equal but opposite waveform to effectively cancel out the unwanted noise, thus bringing you closer to silence. The earphones' special design also provides exceptional sound isolation and a choice of three interchangeable ear caps to ensure a perfect fit.

Audible

Audible.com is your destination for the widest selection of digital audiobooks, magazines,

radio shows, stand-up comedy, and more available for download. Enjoy books in the car, at the gym, or around the house. Authors and icons read their own works, and famous actors narrate your favorite titles. At Audible.com you can browse and sample over 75,000 selections, including the latest best sellers and timeless classics.

SuperScroll™

Double action search keys allow easy speed control when scrolling through large libraries. You can choose to move through your playlist one song or video at a time or just press and hold down a little harder to SuperScroll™ swiftly to your desired file.

FullSound™

Philips' innovative FullSound technology faithfully restores sonic details to compressed MP3 music, dramatically enriching and enhancing it, so you can experience CD music without any distortion. Based on an audio post-processing algorithm, FullSound combines Philips' renowned expertise in music reproduction with the power of the latest generation Digital Signal Processor (DSP). The result is fuller bass with more depth and impact, boosted voice and instrument clarity, and rich detail. Rediscover your compressed MP3 music in true-to-life sound that will touch your soul and move your feet.
