7 Frequently asked questions (FAQ)

Why is there no response when I use the camcorder?

- The camcorder is in power-off mode. Turn on the camcorder (see 'Turn on' on page 8).
- The built-in battery may be drained. Charge the battery (see 'Charge the built-in battery' on page 10).

Why is [Memory full!] displayed when I try to record?

- Make sure that the Micro SD card has been inserted correctly (see 'Load the Micro SD card' on page 8).
- The memory is used up. Save your video/pictures to a computer (see 'Transfer video/pictures to a PC/Mac' on page 16). Then delete files from your camcorder or clear the memory.

How much memory is needed for 1 hour of Full HD recording?

- The camcorder uses 4GB on average for 1 hour of Full HD video. For a more complex video recording (e.g. with lots of motions in the video, or a lot of panning), the camcorder will use more memory. This is done to maintain the video quality, but will increase the usage of memory.

Why do I have no access to folders on the camcorder from my computer?

- Make sure that the USB connection is correct.
- The camcorder turns off automatically 15 minutes after it is connected to a computer. You can press  to turn it on again.

Why do my video/pictures look blurry?

- Hold the camcorder steady in your hands during shooting.
- During video capture, do not move the camcorder too fast.
- Use a tripod (not supplied) if necessary.

Why do my video/pictures look distorted on a TV screen?

- Select the correct TV system.

How do I charge the camcorder?

- You can charge the camcorder via the supported USB cable. When you connect it to your PC/laptop it will automatically charge. You can also connect the camcorder to a USB charger via the supplied USB cable.

How long do I have to charge the camcorder?

- The camcorder is fully charged for first usage. The camcorder charge time when connected to your PC/laptop is 3.5 hours. When you charge it via USB adaptor, the charge time is 2 hours.

Where can I find an adaptor for CAM200 to charge the battery?

- CAM200 can be charged via regular USB adaptors, which are readily available in electronic stores. CAM200 is compliant to the iPhone 4 adapter.

Camcorder stopped responding?

- In the unlikely event that your camcorder stops responding, you can manually reset it. The reset button is located under the protective cover at the bottom of the camcorder. There you see a small opening above the HDMI connection. Please use a small prying object (like a pen) to insert and press gently for resetting. After you have reset the camcorder, please turn on the camcorder again, and set-up will start again.

Why does the camcorder sometimes not record the right color?

- To record both indoors and outdoors, and not having to change any settings, the camcorder has an automatic white-balance correction. This enables you to record both indoors and outdoors where the amount of light in the environment changes. If you move fast from outdoors to indoors, the camcorder might need some time to correct that, and in extreme cases the colors might seem a bit unnatural. However, after a few seconds this will be corrected automatically by the camcorder.

How do I connect it to a Windows PC/laptop?

- Connect the camcorder to your PC/laptop via USB. For easy sharing and editing, install the software program (Media Impression HD) that comes with the camcorder.

How do I connect it to a Mac?

- The camcorder works with the Mac via USB. The camcorder works great with the iMovie software, which is part of the iLife package that comes with your Mac. To transfer videos using iMovie, simply connect the camcorder to your Mac via USB, launch iMovie and start importing by clicking the camcorder icon. Select 'Use original quality' to ensure the best quality, and to maintain file sizes at an optimum.

Can I connect the camcorder directly to TV, DVD/Blu-ray player or Home Cinema set via their USB-port?

- The USB plug is designed to share your videos/pictures to your PC or Laptop. You can plug CAM200 directly into your TV, DVD/Blu-ray player or Home cinema set (called the host from this point on), and it will play the pictures that are stored on CAM200. To play the videos from CAM200, it depends if your host supports the file format H.264 of CAM200. Most Blu-ray enabled players are able to play this format.

What is Advanced Anti-shake?

- Advanced anti-shake lets you take great videos that you will always be proud to share. Steady and undistorted videos are ensured by gyro sensors that are armed with advanced algorithms. The sensors take measurements of the distance between the ground and the camera lens, and make the necessary corrections whenever the camcorder wobbles. This advanced technology gives you blur-free pictures every time, letting you capture the best moments in life in amazing videos.

How do I play my videos on TV?

- If you have a DLNA-compliant TV connected to the same Wi-Fi network as the camcorder, you can play recorded videos on the TV wirelessly (see 'Share to a display device wirelessly' on page 13).
- To play back on an ordinary TV, please use an HDMI connector (mini HDMI to standard HDMI) if your TV accepts HDMI input, or use the video-out cable provided.

Why is there no lens cover?

- The camcorder comes without a lens cover, keeping it simple to use and fuss-free. It is made of robust material that doesn't scratch under normal usage. A travel pouch and a lens cloth are provided, allowing you to keep the camcorder clean.

What format does the camcorder record in?

- The camcorder uses the same video format as Blu-ray players and discs – H.264. This highly sophisticated format delivers superb HD picture quality.

Tips on video making

- You can easily look back on fun moments and relive them with the camcorder. To enjoy these memories to the fullest, here are some simple video tips:
 - When capturing videos, hold your camcorder steady in your hand
 - Don't move too fast when panning (i.e. moving the camera horizontally) as it will be hard to follow what is captured when you review the video

- Try shooting from different angles – for example, from the side, from the front, or even from below. You can easily join the different video segments together with the PC software included

Can I log in to Twitter with the Facebook account?

- This camcorder only supports Twitter login with the Twitter account.

Why do I fail to upload my recordings online?

- There is size limitation to online sharing (see 'Share to YouTube, Facebook, Twitter or Picasa' on page 13).

Disclaimers Regarding Content

The streams of content which are accessible through your Device are not controlled or programmed by Philips. Rather, they are provided by third parties. Think of your Device (in addition to its other features) as a form of "tuner" which allows you to receive the content broadcast by many others outside of your local area. Since the content is provided by others, PHILIPS HAS NO EDITORIAL CONTROL OVER ANY OF THAT CONTENT RECEIVED THROUGH YOUR DEVICE AND, THEREFORE IS NOT LIABLE FOR CONTENT OR ITS NATURE OR DELIVERY. PHILIPS DOES NOT ENDORSE ANY OPINIONS EXPRESSED IN ANY CONTENT RECEIVED THROUGH YOUR DEVICE. PHILIPS DOES NOT GUARANTEE THE TRUTHFULNESS, ACCURACY, RELIABILITY, COMPLETENESS OR TIMELINESS OF CONTENT. YOU AGREE THAT ANY RELIANCE ON CONTENT IS AT YOUR OWN RISK.

Limitations on Access to Streams.

Philips does not guarantee access to any particular stream or to the content contained in any stream. Philips may, in its discretion, add or remove access to any specific stream or content at any time. Some streams are accessible through arrangements with online service providers which determine which streams are listed on their directories. Although Philips will strive to provide a good selection of online service providers, Philips does not guarantee continued access to any specific online service provider. Philips may, in its discretion, add or remove access to any specific online service provider.

Rights in Content

Content may be protected by copyright laws or other intellectual property or proprietary laws. In some situations, such as use of the Device in a commercial environment, it may be necessary for you to obtain, at your own risk, a license or other authorization to use such content. You agree that, in the event such a license or authorization is necessary, it is your responsibility to obtain any such license or authorization. You agree that you are solely liable for any damages you may incur resulting from your failure to obtain the proper license or authorization for use of the content accessible through the Device. You agree that Philips will have no liability to you with regard to your use of the content.

Changes in Features

Philips may, in its discretion, change the features of the Device, including adding features to, or removing features from, the Device. Some new features may require changes to these Terms and Conditions of Use. Your use of those new features will constitute your agreement to the revised Terms and Conditions of Use.

Software and Intellectual Property Rights

You may need to use certain software programs to use or have full access to certain features of the Device. You received certain software with the purchase of the Device and may receive other software from time to time in the future. Most of that software is contained in the Device and is not accessible to you. Some of that software is owned by Philips and some is owned by others. Your use of software owned by Philips is subject to these Terms and Conditions of Use and any applicable license agreement. Your use of software owned by others is governed by their applicable license agreements. Your use of software does not transfer any title or ownership rights in the software to you. Philips retains all its rights in software and other intellectual property, including copyrights, patent rights, and rights in its trademarks and trade names. You agree that you will not disassemble, decompile, create derivative works of, reverse engineer, modify, sublicense, distribute the software or use the software for any unauthorized purpose or in contravention of any law or regulation.

PHILIPS WILL NOT BE LIABLE TO YOU OR TO ANY OTHER PARTY FOR ANY INDIRECT, INCIDENTAL, PUNITIVE, SPECIAL OR CONSEQUENTIAL DAMAGES (INCLUDING LOST PROFITS OR LOST SAVINGS) OR FOR LOSS OF DATA OR BUSINESS INTERRUPTION ARISING OUT OF OR RELATING TO YOUR USE OF THE DEVICE WHETHER OR NOT SUCH DAMAGES ARE BASED ON TORT, WARRANTY, CONTRACT OR ANY OTHER LEGAL THEORY - EVEN IF PHILIPS HAS BEEN ADVISED, OR IS AWARE, OF THE POSSIBILITY OF SUCH DAMAGES. Limitazioni alle modifiche dell'Apparecchiatura

L'Apparecchiatura consente l'accesso ad alcuni contenuti in streaming. Al fine di ottenere l'accesso a detti contenuti in streaming tramite l'Apparecchiatura, l'acquirente acconsente a non alterare né modificare o tentare di modificare l'Apparecchiatura stesso in alcun modo (incluso l'utilizzo di software e mediante modifiche fisiche). L'acquirente acconsente inoltre a non eludere né tentare di eludere le misure tecniche esistenti per controllare l'accesso o proteggere i diritti sui contenuti. L'acquirente acconsente a non eludere né tentare di eludere in alcun modo qualunque sistema di gestione delle copie. L'acquirente acconsente a non decifrare né tentare di decifrare le chiavi di crittografia, nonché a non disattivare né tentare di disattivare le funzioni di protezione esistenti nell'apparecchiatura o nei contenuti in streaming. L'acquirente acconsente a non utilizzare l'Apparecchiatura per scopi non autorizzati e a non violare alcuna legge o regolamento.

Esonero di responsabilità riguardo ai contenuti

I contenuti in streaming accessibili tramite l'Apparecchiatura non sono controllati né programmati da Philips. Vengono invece forniti da terze parti. L'Apparecchiatura (oltre alle altre funzioni di cui è dotato) deve essere considerato come un "sintonizzatore", che consente di ricevere contenuti trasmessi da numerosi soggetti al di fuori dell'area locale. Poiché i contenuti vengono forniti da terze parti, PHILIPS NON ESERCITA ALCUN CONTROLLO EDITORIALE SU DETTI CONTENUTI RICEVUTI TRAMITE L'APPARECCHIATURA E QUINDI NON POTRÀ ESSERE CONSIDERATA RESPONSABILE DEGLI STESSI O DELLA NATURA DELLA TRASMISSIONE. PHILIPS NON AVALLA ALCUNA OPINIONE ESPRESSA NEI CONTENUTI RICEVUTI TRAMITE L'APPARECCHIATURA. PHILIPS NON GARANTISCE LA VERIDICITÀ, L'ACCURATEZZA, L'AFFIDABILITÀ, LA COMPLETEZZA E

LA TEMPESTIVITÀ DEI CONTENUTI. L'ACQUIRENTE DICHIARA CHE FARÀ AFFIDAMENTO SUI CONTENUTI INTERAMENTE A PROPRIO RISCHIO.

Limitazioni all'accesso agli stream

Philips non garantisce l'accesso ad alcuno stream specifico né a contenuti di qualsiasi stream. Philips si riserva il diritto di impedire l'accesso, a propria discrezione, a stream o a contenuti specifici in qualsiasi momento. Alcuni stream sono accessibili tramite contratti con provider di servizi online, che stabiliscono quali stream includere nei propri elenchi. Ciò nonostante Philips attuerà tutti gli sforzi necessari per fornire una buona scelta di provider di servizi online, pur non garantendo l'accesso permanente ad alcun specifico provider di servizi online. Philips si riserva il diritto di impedire l'accesso, a propria discrezione, a specifici provider di servizi online.

Diritti nei contenuti

I contenuti possono essere protetti da leggi sul copyright o altre proprietà intellettuali, nonché da leggi sulla proprietà. In alcune situazioni, quali ad esempio l'utilizzo dell'Apparecchiatura in ambienti commerciali, potrebbe essere necessario ottenere una licenza o altro tipo di autorizzazione all'utilizzo dei contenuti. L'acquirente acconsente ad assumersi la responsabilità di ottenere dette licenze o autorizzazioni, nel caso in cui esse siano necessarie. L'acquirente acconsente a farsi interamente carico delle responsabilità per danni che possano insorgere dalla mancata acquisizione di apposite licenze o autorizzazioni di utilizzo dei contenuti accessibili tramite l'Apparecchiatura. L'acquirente acconsente a sollevare Philips da qualsiasi responsabilità in merito ai contenuti.

Modifica delle funzioni

Philips si riserva il diritto, a propria discrezione, di modificare le funzioni dell'Apparecchiatura, compreso quello di aggiungere o eliminare funzioni. Alcune nuove funzioni potrebbero richiedere la modifica dei presenti Termini e condizioni di utilizzo. L'utilizzo di dette nuove funzioni determinerà l'accettazione dei Termini e condizioni di utilizzo modificati.

Diritti su software e proprietà intellettuali

Per utilizzare e accedere ad alcune funzioni dell'Apparecchiatura è necessario utilizzare alcuni programmi software. Al momento dell'acquisto dell'Apparecchiatura, vengono consegnati alcuni programmi software e in futuro l'acquirente ne potrebbe ricevere altri. La maggior parte di detti programmi software risiede all'interno dell'Apparecchiatura e non è accessibile. Alcuni programmi software sono proprietà di Philips, altri sono invece di proprietà di terzi. L'utilizzo dei programmi software di proprietà di Philips è soggetto ai presenti Termini e condizioni di utilizzo e ad eventuali contratti di licenza applicabili. L'utilizzo di programmi software di proprietà di terzi è soggetto a eventuali contratti di licenza. L'utilizzo dei programmi software non costituisce trasferimento all'acquirente di titoli o diritti di proprietà del software. Philips conserva tutti i propri diritti sui programmi software e sulle altre proprietà intellettuali, compresi copyright, diritti di brevetto e diritti correlati a marchi e nomi commerciali. Si acconsente a non disassemblare, decompilare, creare opere derivate, destrutturare in alcun modo, modificare, sublicenziare, distribuire i programmi software o utilizzarli per scopi non autorizzati o in violazione a leggi o regolamenti.

Limitazione di responsabilità sulla garanzia

PHILIPS NON RILASCIATA ALCUNA ATTESTAZIONE O GARANZIA, ESPLICITA O IMPLICITA, IN MERITO ALLA SODDISFAZIONE DELLE ESIGENZE DELL'ACQUIRENTE NÉ ALL'UTILIZZO CONTINUATIVO, TEMPESTIVO, PROTETTO E SENZA ERRORI DELL'APPARECCHIATURA. PHILIPS NON RILASCIATA ALCUNA GARANZIA IN MERITO AI CONTENUTI TRASMESSI TRAMITE STREAMING. PHILIPS NON RILASCIATA ALCUNA ATTESTAZIONE O GARANZIA, ESPLICITA O IMPLICITA, RIGUARDO ALLE INFORMAZIONI O AI CONTENUTI A CUI SI ACCEDE TRAMITE IL DISPOSITIVO, NÉ IN MERITO ALL'AFFIDABILITÀ O IMPIEGO DI INFORMAZIONI O CONTENUTI A CUI SI ACCEDE TRAMITE L'APPARECCHIATURA. LE GARANZIE SPECIFICHE SONO STATE RILASCIATE AL MOMENTO DELL'ACQUISTO DEL DISPOSITIVO E DETTE GARANZIE, COMPRESE LE LIMITAZIONI DI RESPONSABILITÀ DELLE STESSE, RESTANO VALIDE. Poiché alcune giurisdizioni non permettono la limitazione di responsabilità delle garanzie implicite, dette limitazioni potrebbero non essere applicabili nel caso specifico.

Limitazione della responsabilità

PHILIPS NON SARÀ DA RITENERSI RESPONSABILE VERSO L'ACQUIRENTE O TERZE PARTI IN CASO DI DANNI INDIRETTI, ACCIDENTALI, PUNITIVI, SPECIALI O CONSEGUENZIALI (INCLUSE FRA LE ALTRE LE PERDITE DI PROFITTO E RISPARMIO), NÉ DELLA PERDITA DI DATI O INTERRUZIONI DI ATTIVITÀ DERIVANTI O CORRELATE ALL'UTILIZZO DELL'APPARECCHIATURA, SIA CHE DETTI DANNI SIANO CONSEGUENZA DI ATTI ILLECITI, GARANZIE, CONTRATTI O ALTRI STRUMENTI LEGALI, ANCHE NEL CASO IN CUI PHILIPS SIA STATA INFORMATA O SIA A CONOSCENZA DELLA POSSIBILITÀ CHE TALI DANNI POSSANO VERIFICARSI. IN NESSUN CASO LA RESPONSABILITÀ CUMULATIVA DI PHILIPS PER DANNI (INDIPENDENTEMENTE DALLA CAUSA) POTRÀ ESSERE SUPERIORE ALLA SOMMA CORRISPOSTA PER L'APPARECCHIATURA.

Om toegang te krijgen tot deze stromen, dient u ermee in te stemmen dat u het apparaat op geen enkele wijze zult wijzigen of zult proberen te wijzigen (onder andere door het gebruik van bepaalde software of fysieke wijzigingen aan het apparaat). U stemt ermee in dat u geen pogingen zult ondernemen om de technologie die de toegang tot bepaalde content regelt, te omzeilen. U stemt ermee in dat u geen pogingen zult ondernemen om kopieerbeveiligingen te omzeilen. U stemt ermee in dat u geen pogingen zult ondernemen om de cryptografische sleutels of andere beveiligingsfuncties van het apparaat of de contentstromen te omzeilen. U stemt ermee in dat u het apparaat niet zult gebruiken voor doeleinden waarvoor u niet gemachtigd bent of als u daarmee geldende wetten of regels overtreedt.

Uitsluitingen van aansprakelijkheid inzake content

De contentstromen waartoe u toegang hebt via het apparaat worden niet gecontroleerd of beheerd door Philips. Zij worden ter beschikking gesteld door derde partijen. Het apparaat is in feite een soort "tuner" waarmee u de content kunt ontvangen die wordt uitgezonden buiten uw onmiddellijke omgeving. Aangezien de content ter beschikking wordt gesteld door derden, HEEFT PHILIPS GEEN REDACTIONELE CONTROLE OVER DE CONTENT DIE U VIA UW APPARAAT BINNENHAALT EN KAN PHILIPS BIJGEVOLG NIET AANSPRAKELIJK WORDEN GESTELD VOOR DE INHOUD ERVAN OF DE AFLEVERING. PHILIPS ONDERSCHRIJFT GEEN ENKELE MENING DIE WORDT GEUIT IN DE CONTENT DIE U ONTVANGT VIA HET APPARAAT. PHILIPS VERLEENT GEEN ENKELE GARANTIE VOOR DE JUISTHEID, BETROUWBAARHEID, NAUWKEURIGHEID, VOLLEDIGHEID OF DE TIJDIGHEID VAN DE CONTENT. U STEM T ER MEE IN DAT U OP EIGEN RISICO VERTROUWT OP DE INHOUD VAN DE CONTENT.

Beperkingen op de toegang tot contentstromen

Philips garandeert geen toegang tot een bepaalde contentstroom of tot de content in een bepaalde stroom. Philips mag op elk moment naar goeddunken de toegang tot een bepaalde stroom of content aanbieden of stopzetten. Sommige stromen zijn toegankelijk door overeenkomsten met internetaanbieders. Zij bepalen welke stromen beschikbaar zijn in hun directory's. Philips doet er alles aan om een goede selectie van internetaanbieders aan te bieden. Philips kan echter niet garanderen dat de toegang tot een bepaalde internetaanbieder continu beschikbaar is. Philips mag naar goeddunken de toegang tot een bepaalde internetaanbieder aanbieden of stopzetten.

De rechten op content

Onder bepaalde omstandigheden, als u het apparaat bijvoorbeeld gebruikt voor commerciële doeleinden, dient u mogelijk een licentie aan te schaffen of toestemming te verkrijgen om de content te kunnen gebruiken. U stemt ermee in dat als een licentie of toestemming vereist is, het uw verantwoordelijkheid is deze te verkrijgen. Ten tijde van de aankoop hebt u bepaalde software ontvangen en mogelijk ontvangt u van tijd tot tijd nog andere software. De meeste van deze software zit in het apparaat. U hebt geen toegang tot deze software. Sommige software is het eigendom van Philips, andere is het eigendom van derden. Het gebruik van de software van Philips is onderworpen aan deze algemene voorwaarden en de geldende licentie-overeenkomsten. Het gebruik van software van derden is onderworpen aan de geldende licentie-overeenkomsten. Het gebruik van de software betekent niet dat u eigenaar wordt van de software. Philips behoudt de volledige rechten op de software en alle overige intellectuele eigendom, waaronder copyrights, patentrechten en rechten op zijn handelsmerken en handelsnamen. U stemt ermee in geen afgeleide producten te maken van de software en de software niet aan reverse-engineering te onderwerpen, niet te disassembleren, te decompileren, te wijzigen, in sublicentie te geven, te distribueren of voor niet-geautoriseerde doeleinden aan te wenden of in overtreding van een wet of regel.
