- Dynamic Bass Boost for deep and dramatic sound
- Stereo earphone included

Easy to use

- LCD Display
- Built-in quartz clock
- Autostop cassette deck

Features

Digital tuning for presets

AM/FM tuner

PHILIPS

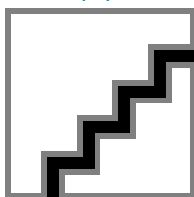

Dynamic Bass Boost

Dynamic Bass Boost maximises your music enjoyment by emphasising the bass content of the music throughout the range of volume settings - from low to high – at the touch of a button! Bottom-end bass frequencies usually get lost when the volume is set at a low level. To counteract this, Dynamic Bass Boost can be switched on to boost bass levels, so you can enjoy consistent sound even when you turn down the volume.

Stereo earphone included

LCD Display

Built-in quartz clock

Autostop cassette deck
