- Dock included for convenient playback from your iPod/iPhone
- Wi-Fi accessory included to easily enjoy your connected media
- Smart TV to enjoy online services and access multimedia on your TV

PHILIPS
sense and simplicity

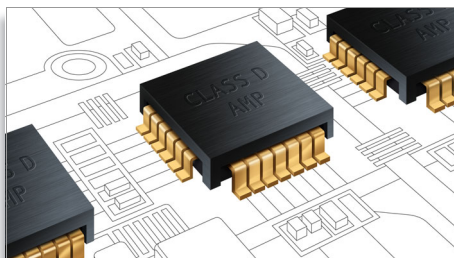

Highlights

Soft dome tweeters

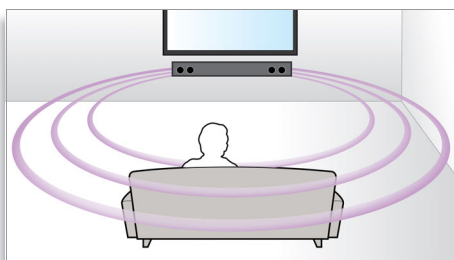

Soft Dome Tweeters reproduce clear high and mid-range frequencies that enhance the overall clarity of sound from the speakers.

Premium Class D Amplifiers

The Philips proprietary Premium Class D Amplifiers are designed to preserve the original sound source for greater audio signal accuracy, thus allowing acoustic details in music and movies to be delivered exactly as the artist or director intended.

Virtual Surround Sound

Philips Virtual Surround Sound produces rich and immersive surround sound from a less than five-speaker system. Highly advanced spatial algorithms faithfully replicate the sonic characteristics that occur in an ideal 5.1-channel environment. Any high quality stereo source is transformed into true-to-life, multi-channel surround sound. No need to purchase

extra speakers, wires or speaker stands to appreciate room-filling sound.

Full HD 3D Blu-ray

Be enthralled by 3D movies in your own living room on a Full HD 3D TV. Active 3D uses the latest generation of fast switching displays for real life depth and realism in full 1080 x 1920 HD resolution. Watching these images through special glasses with right and left lenses that are timed to open and close in synchrony with alternating images creates the full HD 3D viewing experience in your home cinema. Premium 3D movie releases on Blu-ray offer a wide, high-quality selection of content. Blu-ray also delivers uncompressed surround sound for an unbelievably real audio experience.

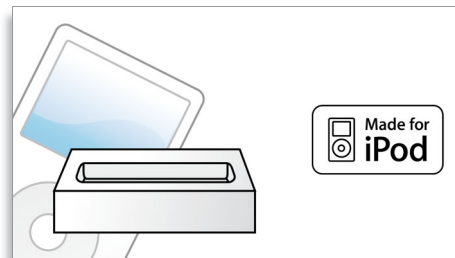

Smart TV

Philips home theatre systems with Smart TV offer you an array of enhanced features, including Net TV, DLNA and MyRemote. Net TV brings a wide range of online information and entertainment to your TV. Simply select Net TV in the Home Menu and start browsing for services like video-on-demand shops* for the latest releases in HD, and Catch-up TV. With DLNA, you can access photos, music and

movies stored on your PC from the comfort of your sofa. Can't find the remote control? Simply use your smartphone or tablet PC to control your home theatre via the Philips MyRemote app.

Dock included for iPod/iPhone

Use the docking station for your iPod and iPhone, and enjoy music from your iPod and iPhone on the home theatre system.

Perfect match to Philips 7000 series TV*

Perfect match to Philips 7000 series TV. Intensify your cinematic experience at home with a matching Philips 7000 series 2011 TV. The 3D TVs combine powerful LED pictures and Ambilight to deliver an immersive 3D movie experience. Both TV and home theatre can be operated with only one remote control and the combined set ensures the best picture and sound performance with Philips Easylink via HDMI. In addition they are both designed with the same materials and finishing for a perfect visual match!
