PHILIPS

Features

Universal standard

The original Philips s-bag® can be used for all Philips and Electrolux Group (Electrolux, AEG, Volta, Tornado) vacuum cleaners with bags. Skip the hassle of endlessly searching for a dust bag, simply look for the s-bag® logo.

Highly resistant material

The s-bag® Anti-Odour is made of a highly resistant synthetic material, produced in Sweden.

Absorbs unpleasant smells

Unlike ordinary vacuum bags, s-bag® Anti-Odour uses a resistant synthetic material coated with an odour absorbing wax to trap unpleasant smells and prevent them from escaping the vacuum cleaner. This vacuum bag is ideal for people with pets.

Hygienic closing system

The patented closing system of the Philips s-bag® allows for easy and clean disposal, without spilling the trapped dirt that is inside.

High filtration capacity

The synthetic material of this vacuum bag filters up to 99% of dust and particles. It filters the air more efficiently than a normal paper bag and helps you get rid of airborne particles such as allergens.
