Highlights

\$100,000 equipment warranty

Protects your connected equipment for the life of the product.

6 outlets

Converts one outlet into six outlets allowing you to plug in multiple devices from one single AC outlet.

Power Blocker

Automatically shuts down power to the connected devices.

1000 Joules

Prevent thousands of dollars of damage to your electronic devices.

Protected coax connections

Connectors route the coaxial signal through the surge protector to protect against surges and spikes.

Protected combo network/phone

Sidactors are used for protecting the network or phone lines. These connectors accommodate either and RJ45 or an RJ11 cord. They route either line through the surge protector to guard against spikes and surges that may occur in the network or phone lines.

Protection indicators

LED lights let you know if your surge protector is functioning properly.
