DesignerSeries™ Universal Ultra Slim Flat Wall Mount

FOR 40" TO 80" ULTRA-THIN DISPLAYS*

One of the world's slimmest mounts, at only 0.19" (5mm) thin, the SUF661 brings displays closer to the wall than most other products in the industry. This near-invisible mount is the beauty that supports the modern style of the latest ultra-thin displays, while the locking arm ensures a secure installation. This unmatched solution delivers space-saving, ultra-sleek looks and brings the display ultra-close to the wall.

- Mount compatible with ultra-thin displays with 150-400mm (in 25mm increments) and 550-800mm (in 25mm increments) horizontal mounting hole patterns
- Ultra slim design holds ultra-thin display only 0.19" (5mm) from the wall for a near-invisible application
- Theft resistant security screw on locking arm
- Easy three-step installation:
 1. Mount the wall plate
 2. Attach display adaptors to display
 3. Hang display
- Mounts to wood studs and concrete
- Comes with fastener pack with all necessary display attachment hardware

SECURE INSTALLATION

Locking arm holds display in place, preventing accidental bump-off or undesired horizontal adjustment

Please visit peerless-av.com/en-us/patents for patent information.

*This display size range is simply a guideline for product selection. Displays larger than the screen size range may still be compatible as long as they fall within the VESA® pattern and max weight of the Peerless-AV® product.

†The depth of this mount (0.19" (5mm)) may not provide sufficient space for proper ventilation on some displays.

Refer to the manufacturer's requirements for mounting the display before installation.

‡The display must have a flat mounting surface, or mounting holes need to be on the furthest back surface of the display. Input/output connection must be properly orientated to accommodate mounting 0.19" (5mm) from the wall.

Holds display 0.19"
(5mm) from the wall
