

Kanguru MobileClone HD Duplicator

1-to-1 Kanguru Hard Drive Duplicator

The Kanguru Mobile Clone HD Duplicator is an ultra-portable, full featured, standalone 1 to 1 Hard Drive Duplicator. It has both SATA and PATA interfaces for connecting virtually any standard hard drive: 2.5" or 3.5" SATA hard drives, 3.5" PATA hard drives, or SATA SSDs. The Kanguru Mobile Clone HD Duplicator can handle it all with ease. With all the features of Kanguru's full-size hard drive duplicators, transfer rates up to 6GB/min and a small form factor, the Kanguru Mobile Clone HD Duplicator is the perfect addition to any IT technician's toolbox!

A sharp LCD display and intuitive user interface makes the Kanguru Mobile Clone extremely easy to use! Just attach your master drive and a target drive, select your copy mode and run the duplication job; it's that easy! The Kanguru Mobile Clone HD Duplicator has all the features that IT professionals need, yet even a computer novice can use it right out of the box.

The Kanguru Mobile Clone HD Duplicator is great for personal use, IT work, backing up hard drives, data wiping, drive testing and more!
