Highlights

For most directional sound

Angled Acoustic Pipe is designed according to the curvature of the human ear canal so that soundwaves from the speaker are directed precisely to your ear drum with the highest definition

For best sound at low volume

You don't have to turn up the volume in noisy places anymore. Angled Acoustic Pipe and the perfectly sealing earbuds cut off background noise significantly, delivering the same quality sound at lower volume and a longer battery life.

For deepest and richest bass

Turbo Bass air vents allow air movement for high-fidelity reproduction of the deepest and richest bass.

1.2m cable

The ideal cable length to give you the freedom to put your audio device where you want.

Flexi-grip design

The soft flexi-grip material that the body of the headphone is sheathed in enhances its performance and extends its durability. It protects the cable connection from damage that otherwise could occur due to repeated bending of the headphone body from frequent contact with the user's fingertips when being put on and removed.

Ear fitting design

The design superiority of a slight 15-degree tilt in the Angled Acoustic model based on the anatomy of the human ear achieves a natural fit and supreme comfort.

Anti-tangle slider

When storing your headphones there is a risk that the cables tangle if not stored carefully. This makes it a hassle to store the headphones and get them ready for listening. Simply slide the anti-tangle slider towards the earpieces to keep the two earpiece cables neatly together, and to minimize the risk of the cables tangling.

3-size ultra-soft silicon caps

3 sizes of ultra-soft silicon caps sit comfortably in your ears without adding pressure to them whilst blocking out unwanted noise

In-line vol and call control

Want to change the volume? Accept or reject a call? The remote features volume and call controls. With this headset control is at your fingertips!

Sensitive and sleek microphone

Sensitive and sleek microphone for picking up your voice clearly

Extra 3.5mm connector

Extra 3.5mm stereo connector for Nokia, Sony Ericsson and Samsung
