Highlights

Charge from a car's 12V outlet

The compact charger plugs into a car's 12V outlet, and connects to your device for easy and convenient charging on the road.

Dual charging

Turn one outlet into a dual-charging station! This charger has two power outlets so you can connect two of your favorite devices using their USB cables.

Sync and charge cable included

The included 30-pin to USB cable is essential for syncing your iPhone or iPod with iTunes, and for charging via your computer or USB charger. Carry it with you, keep it at your desk, or replace the one you lost so you're always able to connect and charge when you need to.

Replaceable safety fuse

The car charger features a replaceable safety fuse which protects your device against electrical surges in your car.

Works with USB-based devices

The universal unit has a USB connection for use with your USB-based device via the device's USB cable which you already own or can purchase separately.
