Highlights

Protected phone connections

These connectors accommodate and RJ11 cord, routing the telephone line through the surge protector to guard against spikes and surges.

Protected dual coax connection

Connectors route the coaxial signal through the surge protector to protect against surges and spikes.

\$350,000 equipment warranty

Protects your connected equipment for the life of the product.

Power Blocker

Automatically shuts down power to the connected devices.

14 outlets

Converts one outlet into 14 outlets allowing you to plug in multiple devices from one single AC outlet.

8 ft power cord

Provides power to the unit which can be 8 feet from the AC outlet.

Right angle plug

This flat design allows for more positioning options and lets furniture sit more closely to the wall.

Cord Management

A cord management device that allows the cable/cords to be routed in the same direction for a more organized appearance

Key Hole Mounting

Key Holes can be used to mount the unit directly to the wall by placing them over the screw heads and lowering into place

automatic child safety outlets

Helps keep children safe from accidental shock.

Protection indicators

LED lights let you know if your surge protector is functioning properly.
