Highlights

14 locking length settings

Turn the wheel to simply select and lock in the length setting you want. Two adjustable combs provide length settings from 0 mm to 15 mm, with precisely 2 mm between each length on the main comb and 0.5 mm between each length on the precision comb. You can also use it without a comb for a close 0.5-mm trim.

180° rotating head

Makes trimming or shaving your own hair easier than ever. Simply select the best angle to comfortably reach all parts of your head without any assistance.

Balder attachment (grooming)

Shave your own head easily and comfortably. Guarantees a smooth shave without nicks and cuts.

Battery light

Battery light glows green when full and blinks orange when 10 minutes remain.

Bonus mirror and pouch

The hand-held mirror provides better visibility when trimming or shaving the back of your head. The pouch stores the clipper and attachments safely together.

Follows every curve

The hair clipper gently follows the contours of your head for a fast, even and comfortable haircut.

Li-ion battery power

The powerful lithium ion battery lasts for 60 minutes after a 1-hour charge. A quick 10-minute charge gives you 10 minutes of clipping time, so it's always ready when you are.

Precision comb (Grooming 2012)

The additional comb gives you extra length settings from 1 mm to 3 mm, with precise 0.5 mm steps between each length.

Precision trimmer

Perfect for getting into hard-to-reach areas, like around your sideburns, under your nose or around your mouth. It's designed to cut very close while still protecting your skin. And its small size makes it easy to see what you're doing for fine lines and details.

Built to last

All of our grooming products are built to last. They come with a 2-year worldwide guarantee and worldwide voltage compatibility.
