Highlights

24 carat gold-plated connector

24 carat gold-plated connectors ensure the best signal quality for your components.

Corrosion-resistant connection

24K gold-electroplated connectors create secure and extremely durable connections that optimize signal quality and deliver the best picture and data transfer.

Die-cast Construction

The splitter body is cast, instead of stamped, for a heavier, more rugged construction and better overall performance.

Dual ground connections

Choose where to ideally ground the body of the splitter.

High quality components

Superior grade internal devices and wiring allow the splitter to maintain the integrity of the original signal.

Mounting screws included

This is all the necessary hardware you need to ideally position and secure the splitter.
