Highlights

Skin comfort system

Designed to be safe and comfortable for the underarms, chest and abs, back and shoulders, groin area and legs. The skin comfort system catches and cuts hairs of different lengths, without the need for multiple tools or skin contact with sharp edges. The bi-directional trimmers cut longer hairs, which are shaved by the foil for a closer result.

Skin-friendly tips and foil

The skin comfort system features a hypoallergenic foil and rounded tips to protect your skin while shaving.

3-mm comb included

1 comb included for a natural 3 mm trim. Attach the comb onto the shaving system, to trim hair to a fixed length of 3 mm. You can use the

shaving system without the comb for a closer result. For thicker hair, pre-trimming with the comb is recommended.

Rechargeable battery power

High-power NiMH battery for full-body use, with 50 minutes of cordless use after an 8-hour charge. The battery light indicates power status when the battery is low or full.

100% showerproof

Provides a comfortable and close result in and out of the shower. The body groomer is 100% showerproof, so you can simply rinse it clean when you've finished. For longer hair, trimming performance may be better on dry hair.

Ergonomic grip

The rubber grip is designed to ensure optimal handling even when wet, for better control during use, in or out of the shower.

Built to last

All of our grooming products are built to last. They come with a 2-year worldwide guarantee and worldwide voltage compatibility, and they never need to be oiled.
