- Number of batteries: 4
- Operating time on battery: 8 hr

Highlights

AUX-in for easy connection

AUX-in for easy connection to almost any electronic device

Battery or AC powered

Battery or AC power option for music enjoyment anywhere

Designed for iPod nano

Designed fit for iPod nano

Dock iPod/iPhone in its case

Smartly designed spring-loaded docking port effortlessly accommodates any iPod or iPhone, without special adaptors. What's more, it works even when most protective cases are on – just dock your iPod or iPhone as it is. Now you can truly have fuss-free enjoyment of your music.

Dynamic Bass Boost (DBB)

Dynamic Bass Boost maximizes your music enjoyment by emphasizing the bass content of the music throughout the range of volume settings - from low to high – at the touch of a button! Bottom-end bass frequencies usually get lost when the volume is set at a low level. To counteract this, Dynamic Bass Boost can be switched on to boost bass levels, so you can enjoy consistent sound even when you turn down the volume.

Slim and miniature design

Slim and miniature design for any space, any lifestyle
