- Wake up to your iPod/iPhone/iPad music or radio tunes
- Weekday/ weekend alarm setting to complement your lifestyle
- Gentle wake for a pleasant wake up experience

Design that blends into your interior

- Aluminum cabinet for quality look and feel

PHILIPS

Highlights

Weekday/ weekend alarm

Designed with modern day lifestyles in mind, this clock radio has a dual alarm feature, allowing you to set different alarm times for weekdays and weekends or even vary the alarm settings for couples. The alarm settings can be tailored for the same alarm times for the entire week from Monday to Sunday. Or you can set the alarm for an early start on weekdays from Monday to Friday, and lazy lie-ins for Saturday and Sundays. Whichever you choose, this convenient features saves you from the hassle of fiddling with different alarm times every single night.

MP3 Link

The MP3 link connectivity allows direct playback of MP3 content from portable media players. Besides the benefit of enjoying your favorite music in the superior sound quality delivered by the audio system, the MP3 link is also extremely convenient as all you have to do

is to plug your portable MP3 player to the audio system.

Play & charge iPod/iPhone/iPad

Enjoy your favorite MP3 music while charging your iPod/iPhone/iPad! The dock lets you connect your portable device directly to the Philips system so you can listen to your favorite music in superb sound. It also charges your iPod/iPhone/iPad while it plays so you can enjoy your music and not have to worry about your portable player battery running out. The system automatically charges your portable device while it is docked.

Gentle wake

Start your day right by waking up gently to a gradually escalating alarm volume. Normal alarm sounds with a preset volume are either too low to wake you up or are so uncomfortably loud that you are rudely jolted awake. Choose to wake up to your favorite

music, radio station or buzzer alarm. Gentle wake's alarm volume gradually increases from subtly low to reasonably high in order to gently rouse you.

Auto clock synchronization

When connect and dock, this docking system will automatically synchronize the clock with your iPod/iPhone/iPad within a few seconds. With this convenient feature, you do not need to set the time manually.

Dock your iPod/iPhone

Smartly designed spring-loaded docking port effortlessly accommodates your iPod or iPhone, without special adaptors. What's more, it works even when most protective cases are on – just dock your iPod or iPhone as it is. Now you can truly have fuss-free enjoyment of your music.
