Enrich your sound experience

- 2x5W RMS/2x10W music power/400W PMPO

PHILIPS

Highlights

Dynamic Bass Boost

Dynamic Bass Boost maximizes your music enjoyment by emphasizing the bass content of the music throughout the range of volume

settings - from low to high – at the touch of a button! Bottom-end bass frequencies usually get lost when the volume is set at a low level. To counteract this, Dynamic Bass Boost can be

switched on to boost bass levels, so you can enjoy consistent sound even when you turn down the volume.
