I N V E R T E R (R 4 1 0 A)

*Stylish good looks with Inverter economy
and loads of features!*

- Economical Inverter technology with eco-friendly R410A gas
- S-Plasma Ion protects against harmful germs and viruses
- Multi-stage deodorising filter removes virtually all airborne impurities and odours
- Good Sleep II feature adjusts temperature and humidity to ensure a restful sleep
- Auto Changeover provides constant temperature regulation
- Filter-cleaning indicator automatically shows when filters need cleaning

Samsung Inverter technology

Precise Inverter technology maintains pre-set temperature without switching compressor on and off, thus reducing electricity consumption by as much as 40%, compared with conventional airconditioners.

MPI Technology

Samsung's world-first Micro Plasma Ion technology generates active hydrogen atoms together with oxygen ions to improve indoor air quality, protecting you from harmful viruses, bacteria and allergy-causing agents that threaten your health.

Filter Cleaning Indicator

Once filters begin to clog up, an airconditioner begins to lose its efficiency. However the Samsung Crystal airconditioner has an FCI light which illuminates to indicate that the filters need cleaning.

Good Sleep II

With automatic adjustment of temperature and humidity during the night, Samsung's Good Sleep II ensures a comfortable environment and a refreshing night's sleep.

Smart Saver

Samsung Smart Saver technology operates the airconditioner automatically in the least amount of time necessary to cool the room, thus saving electricity.
