

Philips Micro music system

- Dock for iPod/iPhone/iPad
- DAB+

DCB852

The allure of sound

Obsessed with sound

Get into style with this Philips Micro Hi-Fi sound system. Enjoy clear and interference-free DAB+ radio, with full control via the free DigitalRadio app and rich visuals via RadioVIS. Play CDs and portable devices via USB or MP3-Link.

Your complete music system

- Play and charge your iPod/iPhone/iPad
- DAB and FM compatible for a complete radio experience
- Play MP3-CD, CD and CD-R/RW
- USB Direct for easy MP3 music playback
- Free DigitalRadio app with RadioVIS and control of DAB+/FM

Rich and clear sound

- Dynamic Bass Boost for deep and dramatic sound
- Digital Sound Control for optimised music style settings
- Bass Reflex Speaker System delivers a powerful, deeper bass
- 30 W RMS total output power

Design that blends into your interior

- Stylish desktop design with high-end metallic front panel
- Elegant design with super-slim CD slot
- Finished in wood and aluminium to fit your lifestyle

PHILIPS

Highlights

DAB and FM compatible

DAB (Digital Audio Broadcasting) digital radio is a new way of broadcasting radio, in addition to FM analogue transmission, via a network of terrestrial transmitters. It provides listeners with more choices and information delivered in clear, crackle-free sound quality. The technology allows the receiver to lock on to the strongest signal it can find. With DAB digital stations there are no frequencies to remember, and sets are tuned by station name, so there is no retuning on the move.

Digital Sound Control

Digital Sound Control offers you a choice of pre-set Jazz, Rock, Pop and Classical controls

you can use to optimise the frequency ranges for different musical styles. Each mode uses graphic equalizing technology to automatically adjust the sound balance and enhance the most important sound frequencies in your chosen music style. Ultimately, Digital Sound Control makes it easy for you get the most out of your music by precisely adjusting the sound balance to match the type of music you are playing.

Free DigitalRadio app

Tune in to radio extras with RadioVIS – a powerful feature provided by RadioDNS, an organisation that links DAB stations with the Internet. With RadioVIS, radio becomes a richer experience with real time Internet content. It specifies how web information is added to radio function, giving you DAB broadcasts accompanied by vivid slideshows of news, traffic updates, commercials and more, deepening the information radio stations provide. To enjoy RadioVis, simply go to the Apple App Store to download the free Philips DigitalRadio app. The app also hands you full control of all DAB+ and FM radio.

Play MP3-CD, CD and CD-R/RW

MP3 stands for "MPEG 1 Audio layer-7.6 cm (3)". .MP3 is a revolutionary compression technology by which large digital music files can be made up to 10 times smaller without radically degrading their audio quality. MP3 has become the standard audio compression format used on the world wide web, allowing quick and easy audio file transfer.

USB Direct for easy MP3 music

Thanks to the complete file transferability, you can easily enjoy the convenience and fun of accessing more digital music via the built-in USB Direct.

Specifications

Audio Playback

- Playback Media: CD, CD-R, CD-RW, MP3-CD
- Disc Playback Modes: 20-Track Programmable, Repeat/one/all/programme, Fast Forward/Reverse, Next/Previous Track Search, Repeat Play, Shuffle Play
