- Dishwasher proof parts for easy cleaning

Designed around you

- Stainless steel architecture
- Matching the Avance breakfast set

Coffee maker
With glass jug Deep black

HD7688/50

Highlights

2-in-1 detachable loader

Now you can brew a jug of coffee in one go! The 2-in-1 detachable loader allows you to fill with water and coffee at a stroke.

Full frontal access

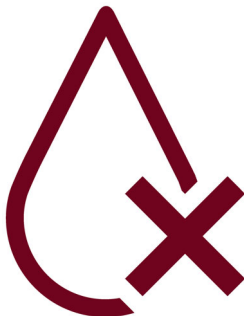

With this new design there is no need to move your coffee maker any more. All the parts are accessible from the front.

Smart water level indication

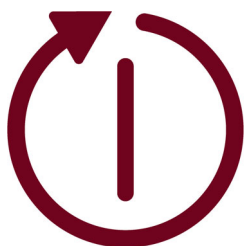

This smart water level indicator is integrated into the water tank, allowing you to see easily how many cups you have filled.

Drip stop

The drip stop allows you to pour a cup of coffee before the full brewing cycle is finished.

Automatic shut-off (30 min)

Auto-off

30 minutes after brewing your coffee, the coffee maker switches off automatically to save energy and for safety. This is in accordance with EU regulations, which apply to all coffee makers in the EU. If you want your coffee to stay hot longer, Philips offers coffee makers with a thermal jug.

Cable storage

Spare cable can be stored in the cable compartment under the coffee maker. This means that the coffee maker can be positioned nicely in your kitchen.

Non-slip feet

The non-slip feet on this Philips coffee maker ensure the stability of your coffee machine.

Hot Plate

Hot plate keeps your coffee hot and tasty

Stainless steel architecture

The design of this Philips coffee maker combines stainless steel with high-quality plastics for a unique architecture that will attract attention.

Matching the Avance set

The coffee machine matches the stainless steel toaster and kettle of the Avance range.

iF Design Award

The iF product design award is one of the most important design awards worldwide. Each year, the iF seal of quality, which is recognised the world over, is awarded for excellent design in the three disciplines of product, communication and packaging design.
