

# 1.8M VGA Cable with Audio

## 2L-2402A

- The VGA Cable is designed to provide a high quality VGA with audio connection, ideally suited for high resolution applications up to 1920 x 1200. Featuring durable design, the cable eliminates the picture ghosting and fuzzy images, guaranteeing users a reliable signal transmission. For application utility, the VGA cable is compatible with ATEN KVM switches.

## Features

- Optimized for analog signal transmission at resolution up to 1920 x 1200
- VGA cable with 15-pin female input and male output
- Audio supported
- Outer shielded with AL Mylar tape for reliable signal transmission
- RoHS compliant
- Tested for compatibility with ATEN VGA KVM products

## Specifications

| Function                      | 2L-2402A                 |
|-------------------------------|--------------------------|
| <b>Conductor</b>              |                          |
| Material                      | Tinned Copper            |
| Conductor Diameter            | 30 AWG                   |
| <b>TO PC/Source Interface</b> |                          |
| VGA                           | HDB-15 Male              |
| Mini Stereo Jack              | Audio Plug (Speaker)     |
| <b>TO Switch Interface</b>    |                          |
| KVM Port                      | HDB-15 Female            |
| Mini Stereo Jack              | Audio Plug (Speaker)     |
| <b>Shield</b>                 |                          |
| Material                      | AL-Mylar                 |
| <b>Jacketed</b>               |                          |
| Material                      | PVC (PolyVinyl Chloride) |
| <b>Cable Length</b>           | 1.8m                     |
