Why buy Original HP print cartridges

Exceptional value: Original HP print cartridges produce over twice as many printed pages as compared to remanufactured and refilled ink cartridges¹.

Exceptional quality: Over 20 years of research and development have gone into the design of Original HP print cartridges to ensure that you get impressive and consistent print and photo quality every time.

Exceptional reliability: In a recent study, more than 1 in 4 remanufactured and refilled cartridges are found dead on arrival or failed prematurely.¹ With Original HP print cartridges, you can expect consistent, reliable and flawless performance.

Environmental commitment: HP's Planet Partners Programme² ensures that Original HP print cartridges collected are recycled responsibly. All cartridges returned to the programme go through a multi-phase recycling process, and various parts are reduced to raw materials that can be used to make new metal and plastic products.
