

In-Ear Headphones

SHE8000/28

Pump up the bass

Non-slip grip for easy fit

With tiny, extra-quality speakers that deliver rich, deep bass, and crystal clear sound. An integrated cable relief withstands pulling for durability, non-slip grip for easy fit. Extra-soft hybrid silicon caps for long-lasting comfort.

Benefits

Enjoy quality sound

- Turbo bass air vents for deepest and richest bass
- Exceptional noise isolation for quality sound at low volume

Ultimate wearing comfort

- Ergonomic Angled Acoustic design ensures a natural fit
- Ultra-soft silicon caps sit comfortably in your ears

Always ready to go

- A 1.2m long cable that is ideal for outdoor use
- Anti-tangle slider
- Durable Flexi-Grip makes a strong flexible connection

PHILIPS

Features

For deepest and richest bass

Turbo Bass air vents allow air movement for high-fidelity reproduction of the deepest and richest bass.

For best sound at low volume

You don't have to turn up the volume in noisy places anymore. Angled Acoustic Pipe and the perfectly sealing earbuds cut off background noise significantly, delivering the same quality sound at lower volume and a longer battery life.

1.2m cable

The ideal cable length to give you the freedom to put your audio device where you want.

Ear fitting design

The design superiority of a slight 15-degree tilt in the Angled Acoustic model based on the anatomy of the human ear achieves a natural fit and supreme comfort.

3-size ultra-soft silicon caps

The 3 sizes of ultra-soft silicon caps of these Philips earphones sit comfortably in your ears without adding pressure to them whilst blocking out unwanted noise.

Length	16.5 inch

Anti-tangle slider

When storing your headphones there is a risk that the cables tangle if not stored carefully. This makes it a hassle to store the headphones and get them ready for listening. Simply slide the anti-tangle slider towards the earpieces to keep the two earpiece cables neatly together, and to minimize the risk of the cables tangling.

Flexi-grip design

The soft flexi-grip material that the body of the headphone is sheathed in enhances its performance and extends its durability. It protects the cable connection from damage that otherwise could occur due to repeated bending of the headphone body from frequent contact with the user's fingertips when being put on and removed.
