- Stages: 0–6 months

Highlights

Airflex Feeding Bottle

A clinical trial demonstrated that at 2 weeks of age, babies fed with the Avent Bottle experienced less colic than babies fed with a conventional bottle. (www.philips.com/Avent).

ISIS Manual Breast Pump

In a clinical study, ISIS was proven to be as effective as a hospital electric pump. ISIS has an award-winning design that imitates your baby's suckling. The result - more milk faster and more naturally than with any other manual breast pump.

Express II Microwave Steriliser

Sterilises 6 bottles in 2 minutes. Just add water, load and place in the microwave. 2 min at 1100-1850 Watt, 4 min at 850-1000 Watt, 6 min at 500-800 Watt.

Disposable breast pads

Unique four layered construction for maximum dryness: 1. Ultra-soft top layer with nipple indent — keeps breast dry at all times 2. Ultra-absorbent layer, cushioned for extra comfort 3. Ultra-absorbent core — draws in moisture to guard against embarrassment 4. Ultra breathable outer layer — helps avoid sore nipples. Anti-slip with adhesive tape — keeps pad in place
