

Philips

In-Ear Headset

- 10-mm drivers/semi-closed back
- In-ear

SHE8005/00

Pump up the bass

For your mobile phone with volume control

SHE8005/00 headphones with tiny, extra-quality speakers that deliver deep bass and crystal clear sound. An integrated cable relief withstands pulling for durability. Non-slip grip for easy fit. Extra-soft hybrid silicone caps for comfort.

Benefits

Designed around you

- In-line remote for volume and call control
- Sensitive and sleek mic for picking up your voice clearly

Enjoy quality sound

- Turbo bass air vents for deepest and richest bass
- Angled Acoustic Pipe channels directional and precise sound
- Exceptional noise isolation for quality sound at low volume

Ultimate wearing comfort

- Ergonomic Angled Acoustic design ensures a natural fit
- Ultra-soft silicone caps sit comfortably in your ears

Always ready to go

- Anti-tangle slider
- A 1.2 m long cable that is ideal for outdoor use
- Durable Flexi-Grip makes a strong flexible connection

PHILIPS

Features

In-line vol and call control

Want to change the volume? Accept or reject a call? The remote features volume and call controls. With this headset, control is at your fingertips!

Sensitive and sleek microphone

Sensitive and sleek microphone for picking up your voice clearly

For deepest and richest bass

Turbo Bass air vents allow air movement for high-fidelity reproduction of the deepest and richest bass.

For most directional sound

Angled Acoustic Pipe is designed according to the curvature of the human ear canal so that sound waves from the speaker are directed precisely to your ear drum with the highest definition

For best sound at low volume

You don't have to turn up the volume in noisy places any more. Angled Acoustic Pipe and the perfectly sealing ear buds cut off background noise significantly, delivering the same quality sound at a lower volume and with a longer battery life.

Ear fitting design

The design superiority of a slight 15-degree tilt in the Angled Acoustic model based on the anatomy of the human ear achieves a natural fit and supreme comfort.

3-size ultra-soft silicone caps

The 3 sizes of ultra-soft silicone caps of these Philips earphones sit comfortably in your ears without adding pressure to them whilst blocking out unwanted noise.

Specifications

Please note that this is a pre-sales leaflet. The contents of this leaflet reflect the best of our knowledge per date and country mentioned above. The contents of this leaflet are subject to change without notice. Philips does not accept any liability as to the contents of this leaflet.

Sound

Acoustic system	Semi-closed	Type	Dynamic
Diaphragm	Mylar dome	Voice coil	CCAW
Frequency response	8–24,000 Hz	Sensitivity	100 dB
Impedance	16 Ohm	Speaker diameter	10 mm
Magnet type	Neodymium	Maximum power input	30 mW

Anti-tangle slider

When storing your headphones there is a risk that the cables tangle if not stored carefully. This makes it a hassle to store the headphones and get them ready for listening. Simply slide the anti-tangle slider towards the earpieces to keep the two earpiece cables neatly together and to minimise the risk of the cables tangling.

1.2 m cable

The ideal cable length to give you the freedom to put your audio device where you want.

Flexi-grip design

The soft flexi-grip material that the body of the headphone is sheathed in enhances its performance and extends its durability. It protects the cable connection from damage that otherwise could occur due to repeated bending of the headphone body from frequent contact with the user's fingertips when being put on and removed.

Connectivity

Connector	3.5 mm stereo
Microphone	Built-in microphone
Compatible with:	Blackberry, HTC, iPhone, LG, Motorola, Palm, Sony Ericsson, Nokia, Samsung
Type of cable	OFC
Cable Connection	two-parallel, symmetric
