- Battery or AC power option for music enjoyment anywhere
- AUX-in for easy connection to almost any electronic device
- Crushproof and shockproof for safe transit
- Free DockStudio app for internet radio & other cool feature

PHILIPS

Features

wOOx technology

wOOx technology is a revolutionary loudspeaker concept that allows you to hear and feel profoundly deep bass that is richer than any other audio system. Special speaker drivers work in harmony with the wOOx bass radiator, and precise tuning between the main driver and the tweeter ensures smooth transitions from low-mid to high frequencies. Dual suspension and a totally symmetrical sandwich construction deliver low and precise bass without noticeable distortion. wOOx produces exceptionally deep and dynamic bass by using the speaker box full volume to truly magnify the impact of the music.

Dock iPod/iPhone in its case

Smartly designed spring-loaded docking port effortlessly accommodates any iPod or iPhone, without special adaptors. What's more, it works even when

most protective cases are on – just dock your iPod or iPhone as it is. Now you can truly have fuss-free enjoyment of your music.

Crushproof and shockproof

This portable docking speaker is built for worry-free handling. Featuring state-of-the-art engineering, the docking station is innovatively constructed for the ultimate in shock-absorbency and structural rigidity. Built to withstand drops of up to two meters and the pressure of weights of up to 100 kg/220 pounds, the dock's unmatched ruggedness means you can truly bring it everywhere you go, knowing that it will emerge safely from transit.

DockStudio app on App Store

The free app adds an array of exclusive cool features to your docking speaker. You can check the weather, tell the time and even use your favorite images as wallpaper. DockStudio also lets you listen to thousands of Internet radio stations worldwide. More updates on skin styles and new functions on the way.
