Enjoy your music wirelessly

- Enjoy a universe of online music services
- Tune into thousands of Internet radio stations
- Support music streaming via UPnP

Design that blends into your interior

- Versatile placement to fit in any home

PHILIPS

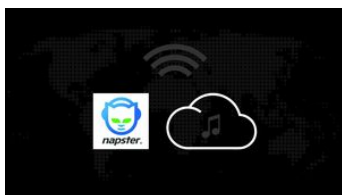

Features

AirStudio+ Lite App

Available from the Apple App store and Google Play, the App automatically detects mobile and other compatible devices connected to your home Wi-Fi network, giving you instant control of your music. Control music playback, volume and sound settings, as well as online music services and Internet radio from any device, anywhere.

Online music service

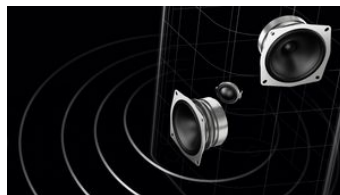

Getting a subscription to online music services is one of the best ways to get your hands on a variety of music, including the latest releases. You can also access music anytime, anywhere, as long as there is an Internet connection. With the Philips Wireless Hi-Fi, you don't even need to turn on your computer to enjoy the online music service.

Internet radio stations

The Fidelio Wireless Hi-Fi lets you enjoy more than 30,000 online radio stations from all across the globe. Expand your musical horizons by discovering great stations by genre or by country, or pick your favourite stations from the vast selection available right at your fingertips. It's super easy too – every Fidelio Wireless Hi-Fi features direct access keys to any station.

6 audiophile-grade drivers

Each speaker features three audiophile-grade Hi-Fi transducers – two mid-range woofers to the left and right of a central tweeter provides truly immersive and dynamic sound

Premium finish

The wooden speaker cabinets are the ideal choice for optimal acoustic performance. Optimised bass-reflex speaker cabinets further enhance the power and depth of the bass to produce big-speaker sound from these stylish wooden speakers. Gold-plated connectors ensure superior audio signal transmission, and their robust and corrosion-resistant build quality makes them the original solution of choice for high-end equipment.
