- Inner carton (L x W x H): 5.2 x 4.7 x 7.3 inch
- Gross weight: 1.587 lb
- Nett weight: 0.483 lb
- Tare weight: 1.105 lb
- GTIN: 1 06 09585 19373 1

Highlights

Built-in desktop stand

The integrated desktop stand on the back of the case allows convenient, hands-free video viewing on any flat surface.

Matte, soft-touch finish

For an added sense of security, this case features a matte, soft-touch finish that adds a tactile layer to your device, which may otherwise feel slippery in your hand.

Double your battery capacity

Now you can talk, surf and enjoy the music and videos on your iPod or iPhone for nearly twice as long with double the battery capacity provided by the compact, lightweight battery.

Hidden power-indicator light

Discreet and energy conscious, the hidden LED light appears with the push of a button to let you know the power status of your battery pack at a glance.

Works anywhere

Even if you're not near a wall or car charger, you can recharge your device's battery with the convenient battery pack. The intelligent battery pack supplies power first, so you can remove the pack after use and still have a full battery on your device.

Acoustic channel

Instead of blocking your speakers, the acoustic channel at the base of the case directs the sound outwards and towards you for an optimized sound experience.

Case with integrated battery

Don't just protect your iPhone – power it! Now you can talk, surf and enjoy the music and videos on your iPhone for nearly twice as long with the power supplied by the slender, lightweight battery that's seamlessly integrated into the back of the case.

Mini-USB sync and charge cable

The included mini-USB cable connects to a USB charging unit - like your computer or a USB wall or car charger. When connected to your computer, the cable allows you to sync your iPhone or iPod with iTunes.

Hard-shell case

This hard-shell case is made out of a highly durable material that provides strong protection for your device.
