- Main unit depth: 271 mm
- Packaging height: 354 mm
- Main unit height: 290 mm
- Packaging width: 740 mm
- Main unit width: 220 mm
- Speaker depth: 175 mm
- Speaker weight: 189 mm
- Speaker height: 290 mm

Power

- Power supply: 100 - 240V AC, 50/60Hz

Highlights

Dynamic Bass Boost

Dynamic Bass Boost maximizes your music enjoyment by emphasizing the bass content of the music throughout the range of volume settings - from low to high - at the touch of a button! Bottom-end bass frequencies usually get lost when the volume is set at a low level. To counteract this, Dynamic Bass Boost can be switched on to boost bass levels, so you can enjoy consistent sound even when you turn down the volume.

MP3 Link

The MP3 link connectivity allows direct playback of MP3 content from portable media players. Besides the benefit of enjoying your favorite music in the superior sound quality delivered by the audio system, the MP3 link is also extremely convenient as all you have to do is to plug your portable MP3 player to the audio system.

Digital Sound Control

Digital Sound Control offers you a choice of pre-set Optimal, Jazz, Techno and Rock controls you can use to optimise the frequency ranges for different musical styles. Each mode uses graphic equalizing technology to automatically adjust the sound balance and enhance the most important sound frequencies in your chosen music style. Ultimately, Digital Sound Control makes it easy for you get the most out of your music by precisely adjusting the sound balance to match the type of music you are playing.
