IMPORTANT SAFETY INSTRUCTIONS!

WARNING: A WARNING alerts you to the possibility of serious injury or death if you do not follow the instructions.

CAUTION: A CAUTION alerts you to the possibility of damage or destruction of equipment if you do not follow the corresponding instructions.

WARNING: Failure to read, thoroughly understand, and follow all instructions can result in serious personal injury, damage to equipment, or voiding of factory warranty! It is the installer's responsibility to make sure all components are properly assembled and installed using the instructions provided.

WARNING: Failure to provide adequate structural strength for this component can result in serious personal injury or damage to equipment! It is the installer's responsibility to make sure the structure to which this component is attached can support five times the combined weight of all equipment. Reinforce the structure as required before installing the component.

WARNING: Exceeding the weight capacity can result in serious personal injury or damage to equipment! It is the installer's responsibility to make sure the combined weight of all equipment and accessories mounted on each TA100/200/250 shelf does not exceed 10 lbs (4.54 kg) per shelf.

WARNING: RISK OF INJURY TO PERSONS! Do not use this mounting system to support video equipment such as televisions or computer monitors.

WARNING: Do not use this product outdoors.

TOOLS REQUIRED FOR INSTALLATION

PARTS

Installation

Shelf Assembly

1. Use three 1/4-20 x 5/8" button head cap screws (F) and three 1/4" washers (G) to connect shelf (C) to either extension bracket (B) or attachment bracket (A). (See Figure 1)

NOTE: Use extension bracket (B) for larger displays or if component needs to be mounted further from the display.

Figure 1

2. If using extension bracket, use three 1/4-20 x 5/8" button head cap screws (F) and three 1/4" washers (G) to attach extension bracket (B) to attachment bracket (A). (See Figure 2)

Figure 2

Installation to Faceplate

TS525 or iCF50 Installation

NOTE: Display does NOT have to be removed for shelf installation.

1. Use four #10-24 x 3/8" button head cap screws (E) to connect attachment bracket (A) to swing arm faceplate. (See Figure 3) and (See Figure 4)

Figure 3

Figure 4

TS3XX or iCF30 Installation

1. If already installed, remove display from faceplate. See swing arm installation instructions for details.
2. Use four #10-24 x 1/2" Phillips head cap screws (H) and four #10-24 lock nuts (J) to connect attachment bracket (A) to faceplate. (See Figure 5) and (See Figure 6)

Figure 5

Figure 6

3. Reinstall display to faceplate. See swing arm installation instructions for details.

NOTE: If also installing side speaker brackets (TA300), attachment bracket (A) should also be attached to TA300 horizontal brackets for additional support. Use hardware provided with TA300. (See Figure 7)

Figure 7

Camera/Component Installation

WARNING: Exceeding the weight capacity can result in serious personal injury or damage to equipment! It is the installer's responsibility to make sure the combined weight of all equipment and accessories mounted on the TA100/200/250 shelves does not exceed 10 lbs (4.54 kg) per shelf.

NOTE: Mounting options will vary depending on the type of camera being mounted.

NOTE: Camera or component can also be secured to mount by threading cable ties or a PAC103 safety strap (not included) through outside slots on shelf and around the device.

Using Adhesive Squares

1. Use up to eight adhesive hook and loop squares (M) to secure camera or component to shelf. Attach adhesive squares to bottom of camera first and then attach corresponding squares to shelf when the exact mounting location has been determined.

Using Screw (TA200/250 only)

2. Install 1/4-20 x 3/8" Phillips pan machine screw (N) through mounting slot and into hole on bottom of camera. (See Figure 8)

Figure 8

NOTE: It is also acceptable to mount the camera directly to the shelf without any screws or ties.

Adjustments

Height Adjustment

1. Loosen three 1/4-20 x 5/8" button head cap screws (F) holding extension bracket (B) or shelf (C) to attachment bracket (A). (See Figure 9)
2. Adjust height of shelf (C) as desired.
3. Tighten three 1/4-20 x 5/8" button head cap screws (F) holding extension bracket (B) or shelf (C) to attachment bracket (A). (See Figure 9)
