- Volume Control: rotary

Accessories

- Included accessories: User Manual, Warranty certificate, AC power adaptor

Dimensions

- Product dimensions (W x H x D): 134 x 112 x 42 mm
- Weight: 0.4 kg
- Weight incl. Packaging: 0.5 kg
- Packaging depth: 114 mm
- Packaging height: 148 mm
- Packaging width: 159 mm

Power

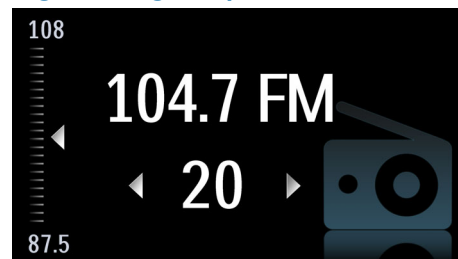

- Battery type: CR2032 (backup)
- Number of batteries: 1
- Mains power: AC adaptor, 110-127V input

AJ7000/37

Highlights

Digital tuning with presets

Simply tune into the station that you want to preset, press and hold the preset button to memorize the frequency. With preset radio stations that can be stored, you can quickly access your favorite radio station without having to manually tune the frequencies each time.

Gentle wake

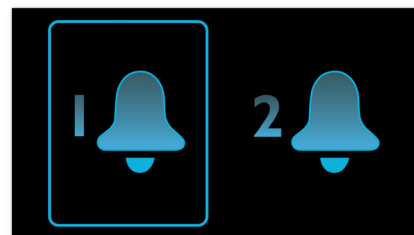

Start your day right by waking up gently to a gradually escalating alarm volume. Normal alarm sounds with a preset volume are either too low to wake you up or are so uncomfortably loud that you are rudely jolted awake. Choose to wake up to your favorite music, radio station or buzzer alarm. Gentle wake's alarm volume gradually increases from subtly low to reasonably high in order to gently rouse you.

Time and alarm backup

When there is a power failure, this intelligent clock will still maintain and keep its reliable time and your settings. The scheduled alarm remains active even when its display is off - all thanks to a pre-installed battery. When the power comes back on, there is no need to adjust the clock or reinstate settings. More amazingly, even if power supply is not restored, the battery provides enough energy for the buzzer to go off at the alarm time you have set - making sure you never wake up late.

Dual alarm

The Philips audio system comes with two alarm times. Set one alarm time to wake you up and the other time to wake up your partner.
