Highlights

Charge from a car's 12V outlet

The compact charger plugs into a car's 12V outlet, and connects to your device for easy and convenient charging on the road.

Delivers more power

Don't sit around waiting for your device to charge! The higher power output of this charger ensures your device is fully charged in a shorter amount of time compared to standard, less powerful chargers.

Interchangeable connector tips

Get connected! USB cable with interchangeable connector tips included: Micro-USB, Mini-USB, LG, Samsung and Nokia.

Replaceable safety fuse

The car charger features a replaceable safety fuse which protects your device against electrical surges in your car.

Works with USB-based devices

The universal unit has a USB connection for use with your USB-based device via the device's USB cable which you already own or can purchase separately.
